Thanks Bob. I believe that someone from Sylvia's pre-Remedial group is assigned. I'm copying her as an FYI. Chris.

Chris,

I wasn't able to chat and make a site visit with the DEC folks on Thursday concerning the North Pole Refinery and the Fairbanks PCE site. Ann Farris was in Juneau and things were busy with the Pump Station spill. I'm still on line to meet with the DEC on June 18th with site visits. I'm hoping that a member from the Remedial staff will be attending the "sulfolane" meeting since they were petitioned.

Just keeping you updated.

Hi Bob!

It was nice speaking with you last week re the North Pole Refinery TPT.

I am attaching the most recent draft agenda for your review.

Please let me know if there are any other agenda items you would like to add to the agenda. I dont know if you want to mention the ACAT letter as an agenda item, or simply bring it up in a more casual way during the meeting. You can let me know!

Thanks Bob, and I will look forward to meeting you in a few weeks in Fairbanks.
